PRC Meeting.

25X1 [redacted] called and said he had had a meeting with the Senior Alumni of the FBI who are now in OSO. He finds a good deal more on our side in our controversy with the FBI and an additional dossier is being prepared.

Colonel Baird called and said he had received a call from Senator Hayden who had tried to reach the DCI. Hayden had two questions on his mind: one in relation to CIA printing activities, and the other in relation to a publication by State Department which [redacted] said had CIA blessing. Colonel Hansen and Mr. Pforzheimer will check into these items and prepare an answer for Senator Hayden.

25X1 [redacted] called. He has been advised that General Willoughby will see him on the 1st or 2nd of November to go over the intelligence material which Willoughby has promised to us. General Willoughby, however, would like [redacted] to carry a letter of introduction and identification papers. I will prepare a letter for the DCI's signature.

2 Dr. Andrews, OCD, called in regard to requests for additional NIEs from IAC Agencies. Told him that if such requests were for small numbers and for legitimate reasons, in his opinion, to go ahead and satisfy them. If any request is in unusually large numbers or for an unsatisfactory reason, he will check with me.

Set up a meeting with Dr. Andrews and Mr. Reber for 10:30 on Monday to go over a possible revision of paragraph 5, NSCID 1.
